THERMAE & WELLNESS HOTEL

2012

Abano
Terme

Discover enchanting landscapes, extraordinary works of art, and a land rich in history: a remarkable blend of art, culture and scenic beauty.

The park

The Euganean Hills Regional Park. Established in 1989, the Park's 18.702 hectares includes the highest hills in the Po River Valley. Centuries old oaks and chestnut forests alternate with characteristic Mediterranean thicket and hillsides terraced with vineyards and orchards. Rarely included in the conventional tour of Italy but equidistant from the most important cities in the Veneto, Abano Terme, at the foot of the Euganean Hills, offers unique itineraries, walled towns and medieval hamlets like precious gems that stud the countryside: Arquà Petrarca, Praglia, Valsanzibio, Monselice, Montagnana, and Este.

The Veneto Region

Distinguished by its historical-artistic heritage and the variety of its offer, the region is renowned as the preferred choice for visitors attentive to environmental and urban quality, courteous service, and a warm welcome. Tried and tested tours to new destinations near and far from Venice make Abano and the AbanoRitz hotel the ideal point of departure for responsible tourism for trips to the Veneto Region's cities of art.

Padova, with its squares and basilicas, is a city of human dimensions that offers one of the world's masterpieces of 14th century art, Giotto's Scrovegni Chapel. **Vicenza** has villas and river boat tours that highlight the genius of Palladio. **Verona** offers Juliet's balcony and a Roman arena that hosts opera and other events. **Venezia** is unique in all the world; lose yourself in its alleys and squares. The Veneto Region abounds in history, art, culture folklore, and culinary pleasures and makes discerning visitors an offer they would do well to investigate.

A nighttime photograph of a swimming pool. The pool is illuminated with a bright blue light, creating a shimmering effect on the water. In the background, there is a dark stone wall and a path leading through trees. A single light fixture is visible on the path, casting a warm glow. The sky is a deep blue, suggesting dusk or dawn. The overall atmosphere is serene and elegant.

AbanoRitz

Thermae

Thermal water

Thermal water reaches the AbanoRitz after a long journey that begins in uncontaminated Alpine foothills and continues underground for 25 years after reaching a temperature of 87° C and picking up various minerals along the way that make it unique in all the world. In Abano Terme, this water is primarily used for the maturation, conservation and regeneration of...

...thermal mud

Rich in minerals itself, the clay used in our mud is gathered from the bottoms of lakes of volcanic origin at the foot of the Euganean Hills, filtered from impurities, and matured in thermal water until it generates the unique microflora that gives it its extraordinary healing power. Euganean Hills thermal mud detoxifies, lessens inflammation, and decongests at deep levels, stimulates circulation and oxygenation in blood and tissues, and helps increase energy and vitality.

Scientific research

Scientific research has confirmed once again the validity and unique nature of Euganean Hills thermal mud that has resulted in the granting of a European patent. The hotel's thermal spa and healthcare structure has been classed at Superior level by the Italian Health Ministry. The hotel is also an accredited ASL treatment center for fangotherapy, inhalation therapy, and the treatment of rhinogenous deafness.

Health

Excellent facilities and a staff of trained professionals, physicians, physical therapists, massagers, and personal trainers who indicate and provide the most appropriate treatment let the AbanoRitz Hotel propose an assortment of packages conceived for better human health.

Taste Passion

DeGustibus: pleasures for the senses

We arouse your senses and stimulate your curiosity: discover our territory with your nose and palate! Much more than a mere vacation, a vivid experience!

The "Il mio Vino" taste laboratory: at the "Salvan" or "Pianzio" Vineyards: two hours to visit the vineyards and learn more about the various types of grape in the company of a vine dresser. The wine sampling will give each visitor the chance to choose the combination of qualities and quantities and create his or her own Bordolese blend.

Villa dei Vescovi: this noble residence from the Cinquecento has reached modern times virtually intact and conserves its ancient relationship of harmony with the surrounding hillsides. Slowly absorbing the Villa's atmosphere makes for an unforgettable experience: a reflection on the way the work of Man can sometimes complement the beauty the work of Nature.

A typical dinner: at "Al Sasso" trattoria presents the culinary traditions of the Euganean Hills enhanced by gastronomic research and experimentation. There are many specialties to be sampled along our partner, the "Strada del Vino".

Artistic Passion

Terme & Culture. When Wellbeing is enhanced by Art

Abano Terme offers artistic itineraries that leave the conventional tourist trail: the walled cities of Este, Monselice, and Montagnana, castles, villas, and medieval complexes like Arquà Petrarca and Praglia set amidst the greenery of the Euganean Hills. Not far away lie the world famous cities of Padova, with the 14th Century art of Giotto and the villas lining the River Brenta, Verona, with its Roman arena and opera season, Vicenza, built by the architect Palladio, and of course, extraordinary and unequalled Venezia. This unique legacy of art and history is just an hour away from the AbanoRitz: your home in the Veneto.
